RECERTIFICATION PROGRAM

How Often Should A Thermometer Be Recertified ?

Many factors determine recertification of thermometers, such as usage, temperatures measured, in-house procedures, and regulatory agencies' guidelines and policies. As a general guideline for good laboratory and manufacturing practices, thermometers should be recertified/verified on an annual basis.

The Recertification Program Consists of...

- Complete visual inspection for any physical damage.
- If possible the damage will be repaired.
- Thermometer readings are compared against NIST standards in high precision calibration baths using the comparison method at determined test temperatures.
- Each temperature is recorded to 1/10th of a scale division.
- A calibration report is generated detailing the pertinent information including the correction factors for each test point.
- All calibration information is entered into the THERMCO data storage system.
- All certification procedures are performed in accordance with NIST and ASTM guidelines, which meet with requirements set by regulatory agencies.

How to Order Thermometer Recertification...

Complete all the information on the RECERTIFICATION FORM and carefully pack thermometer along with the current calibration certificate and payment method, we accept purchase order - company check - Visa & MasterCard,

to: **Thermco Products Inc. 10 Millpond Drive, Unit #10, Lafayette, NJ 07848**

RECERTIFICATION AUTHORIZATION FORM

Recalibration Interval Date:

Please indicate the recalibration interval that you would like to be on your certification report.
 ISO 17025 Prohibits us from prescribing calibration intervals, however our manufacturer recommends 1 year recalibration intervals.
NOTE: Work cannot be completed until the calibration interval is determined.

ITEM	S/N	MODEL#	CALIBRATION TEST TEMPERATURES (Please List) <small>Example... -20, 0, 4, 25 °C or °F</small>	CALIBRATION Interval 1 or 2 yrs
1				
2				
3				
4				
5				
6				
7				
8				
9				

NOTE: Please provide the latest calibration certificate(s) for each item
